

Practice Corrections Template

Name _____ Date _____

Did you remember to...

- *Use a pen when correcting?*
- *Write the amount wrong on the front page of your packet?*
- *Write in the correct answers for all incorrect problems?*

DIRECTIONS:

STEP 1: In the left-hand column, write the question number and directions down for each problem you answered incorrectly. **DO NOT RE-WORK THE PROBLEMS YET!**

STEP 2: Once ALL of the problems you answered incorrectly are written in the left-hand column, re-work each question, showing your work/thinking in the right-hand column. If you get stuck, refer to the information in your math binder to assist you.

STEP 3: Refer back to your weekly practice packet and ensure you obtained the correct answer for each problem that you re-worked.
